5

HACKATHONS

3x

1ST PLACE

1.5

YEARS IN THE FIELD

PROFILE

Software Developer with 1.5 years of commercial experience. I build web and mobile applications in Python (FastAPI, Django) and TypeScript (React, React Native, Next.js). I own the architecture of an AWS hosted eCMR system. Winner of 5 hackathons, including 3 first places.

EXPERIENCE

Software Developer

since 07.2026

Digitay digitay.pl

Web and mobile applications for Digitay clients, from architecture to production rollout. Flagship product: Fluo, a time tracking and team management platform.

- Fluo: time tracking, schedules, leave requests and project cost reports
- React Native/Expo mobile app with offline mode, Next.js web panel and a Node.js API

Software Developer

since 12.2025

Norsys sp. z o.o. greentransit.pl

Architecture and development of GreenTransit, an eCMR system for digital transport document flow. An AWS hosted PWA that removes paperwork from the TSL industry.

- FastAPI backend with Alembic and PyTest, React and TypeScript frontend
- AWS infrastructure, offline PWA mode, integrations with TMS, WMS and ERP systems

Junior Python Developer

09.2025 to 05.2026

Gaius-Lex gaius-lex.pl

Systems for automated collection and processing of data from public online sources.

- Web scraping tools, validation and standardization of retrieved documents
- Optimization of large volume data processing

PROJECTS

DosFit

App Store, Google Play

Mobile app for changing eating habits. AI calorie counter with photo analysis, gamification and a parent-child module.

AI Content Agent

1st place, Blazity Hackathon

Agent generating personalized posts and videos, editing the material and publishing to Facebook and Instagram through the Meta API.

HRK CRM

HRK Payroll Consulting

CRM automating contract lifecycles and rate indexation. I built the AI/RAG architecture (Bielik 4.5B, pgvector) for contract analysis.

Fin-Insight

team project

Investment portfolio management with market analysis, an LLM based AI Advisor module and OAuth2/OIDC login through Keycloak.

HACKATHONS

1st place

Blazity Hackathon: AI for Content (AI Content Agent, 06.2026), Fintech Łódź_Hack (Moje Osiedle, 12.2025), Hack na Zdrowie 4, UMED Łódź (Kids Health App, 05.2025)

2nd place

BestHackingLeague, BEST (DPF Hunter, 11.2025), Hack&Play, PLAY (PharmaRadar, 10.2025)

TECHNOLOGIES

FRONTEND

React React Native TypeScript Next.js Tailwind CSS PWA

BACKEND

Python FastAPI Django Node.js Java Spring Boot REST API

DATA AND INFRASTRUCTURE

PostgreSQL MySQL MongoDB Redis Docker AWS CI/CD Git

TESTING, AI AND TOOLS

PyTest RAG pgvector GitHub Copilot Cursor

EDUCATION

Applied Computer Science, engineering degree

Lodz University of Technology, since 2023

IT Technician

ZST im. Armii Krajowej, 2019 to 2023

CERTIFICATIONS

Eskadra Bielika 2026

INF.02 and INF.03 2023

E-commerce Marketing 2024

LANGUAGES

Polish native, English B2, German A2
